

Vote for me! This is Brittany Johnson and I would like the opportunity to be the next President-Elec for the CENTEX Chapter. While serving as the Secretary and Treasurer for the organization, I have had the chance to learn from and meet some wonderful people. This is my 13<sup>th</sup> year in education, my 10<sup>th</sup> in Transportation and I can say it is in my blood.

As your President-Elec I would seek to increase our membership and hopefully have several additional districts join(rejoin) our ranks. We all face similar challenges within our industry but the various sizes of each district offer different solutions, which when shared, has the potential to improve all of our operations. And that effects our students, the reason we do what we do. Thank you for your consideration.
